DETAILED ACTION

1. Claims 4 and 16 have been amended.
2. Claims 1-20 are pending.

Response to Amendment

3. The Examiner has accepted changes made to the specification.

Response to Arguments

4. Applicant's arguments filed on 16 February 2005 have been fully considered and they are persuasive.

Allowable Subject Matter

5. **Claims 1-20 are allowed.**
6. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for binding and unbinding ticket items with user-negotiated item features. Each independent claim identifies the uniquely distinct features **"receiving an unbind request from a requestor including the ticket identifier corresponding to the electronic ticket and unbinding the security features from the ticket identifier in response to determining that the unbind request is authorized"**. The closest prior art Sehr (US Patent No. 6,085, 976) discloses a travel system utilizing multi-application passenger cards and Goldstein et al. (US Patent No. 6,216,227) discloses a system and method for storing and validating electronic tickets for multiple venues on a single smart card, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

7. Therefore, **claims 1,9, and 13**, and the respective **dependent claims 2-8,10-12, and 14-20** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
